FEDERAL COMMUNICATIONS COMMISSION

WASHINGTON, D.C. 20554

IN REPLY REFER TO:

8930 -TJE

October 19, 1982

File Number - BPFT-820414 IA
Filing Date - April 14, 1982
Service - FM TRANSLATOR
Location - KENAI & SOLDOTNA, AK

In order to speed up processing of your application, this informal letter is being sent concerning problems/omissions with your application.

Absent a showing of severe terrain problems which would limit communities coverage, a rule waiver to permit 100 watts TPO does not appear justified. Substitution of proposed omni antenna by dual high gain directional with coupled 10 W transmitters would provide nearly equivalent ERP toward subject communities at approximate same equipment costs.

Location of proposed translator within KQOK 1 mv/M contour, in contravention of Rules Section 74.1232, would place your proposal in jeopardy should KQOK object either before or after construction.

We request that you submit the needed information in letter form, signed by the licensee. If we have not received a response within 45 days, your application will be dismissed pursuant to Section 73.3568 of the Rules. Please address all correspondence to the individual below, referencing your file number. If you have any questions, please call or write:
